### **Section 2 Communicating Privacy Information**

NVTEC New Forest Group informs members about GDPR by the following ways:

- A news letter issued on club nights and emailed to all members of the club in 2018.
- NVTEC club magazine (Vapourising) explaining the effects of the changes taking place nationally from 25<sup>th</sup> May 2018 and how member's data is stored and used
- A policy statement on renewal forms for 2019 for members to sign
- NVTEC Group has stated their privacy information notice clearly on their web site <a href="newforesttractorandengineclub.co.uk">newforesttractorandengineclub.co.uk</a>

#### Members are now aware of:

- What personal member data is stored
- How NVTEC Group use member's data
- The data retention period of NVTEC Group
- The right of a member to complain about their data stored by NVTEC Group
- The right of a member to request the removal of their data stored by NVTEC Group

# **Section 3 Individual's Rights**

NVTEC Group recognise the member's rights:

- To be informed about GDPR through the web site and club magazine/News letter.
- To have a right of access by members speaking directly to NVTEC Group committee members answering directly any questions a member may have
- Of rectification should any details be incorrectly listed or recorded
- Of erasure of personal data following written request by the member and a letter confirming that erasure of data has taken place
- Members need to recognise that should they wish their data removed from the
  membership lists they will not be able to have an insurance / membership card, not be
  able to renew insurance, not receive email information, on line forum access (such as
  "Facebook" or "Splutter" from Notts Group) or the Vaporising magazine from
  National

### **Section 4 Data Breaches**

NVTEC Group has the following protocols in place to address the issue of data breach:

- All membership data held by the membership secretary is stored on a portable hard drive, not a main computer, and kept away from the computer when not in use
- All personal data from the auction is held by the chairman, treasurer and the secretary, and is not stored but shredded
- All personal data from exhibitors at shows and working events is stored on a portable hard drive, not a main computer, and kept away from the computer when not in use
- Should NVTEC Group detect a data breach via loss or theft of a hard drive, or other data storage device, they would contact and inform the police about the loss of the device(s) and the content included
- They would also report the loss of the hard drive, or other data storage device(s) and the content included and contact the relevant agencies.
